Aneesh: We agreed to pursue the RFI regarding partnerships. Bill Schrier remains the lead. We are interested in both a voice and data partnership (in fact, without voice, the partnership loses much of the value to us). Bill's drafted a plan and will move forward within the REPC structure (we've got four alternatives under discussion: extend current technology; migrate to a Motorola P25 system; migrate to a competitive RFP for a P25 system and a public-private partnership – Bill's proposal).

We are looking forward to your help. Bill gave you great credit for what you'll be able to do!

Take care,

Let me know how Monday goes – Shrier mentioned the board is considering releasing the RFI; I'd love to re-engage if/when possible.

Thanks.

Aneesh: Thanks for the update. My apologies for my delayed response; I've been off on vacation with the family and there was a certain familial reluctance to allow me to use modern communications technologies.
